CleanPowerSF Update

Local Agency Formation Commission

November 17, 2023

Agenda

1. Enrollment and Service Statistics
2. California Community Power
3. Green Power Program Recognition

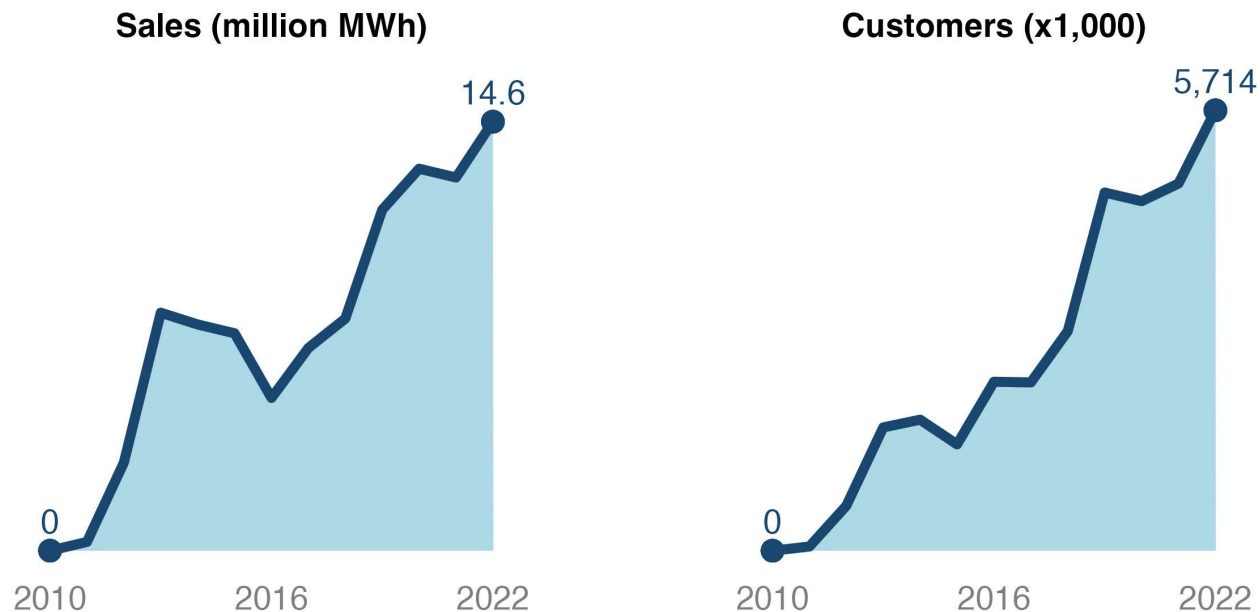

Enrollment and Service Statistics

- Enrolled >409,000 customer accounts
- 4.5% opt-out rate (96% retention) since launch
- 2.2% SuperGreen 100% renewable upgrade rate
- SuperGreen now accounts for >9% of retail sales

CleanPowerSF Named to Green Power Program CCA Top 10

CCA Voluntary Renewable Energy and Customers

For more information see: <https://www.nrel.gov/analysis/green-power.html>

- The National Renewable Energy Laboratory (NREL) named CleanPowerSF one of the Top Green Power Providers in the U.S.
- NREL’s analysis shows that community choice aggregation has become the largest growing segment of “voluntary” renewable energy procurement in the US.
- CCA voluntary renewable energy procurement grew by 14.6 million megawatt-hours (MWh) since 2010, compared to 11.2 million MWh by utility and 13.2 million MWh from non-CCA competitive provider green pricing programs over the same period.

California Community Power “Getting it Built Right”

Comments from the public are invited, ideally by the end of November.
