CleanPowerSF Credit Support

- CleanPowerSF uses a bank credit agreement to issue standby letters of credit to cost-effectively and efficiently secure financial obligations.
- Standby letters of credit secure payment obligations under power purchase agreements and satisfy CPUC Financial Security Requirements.
- The SFPUC is seeking Board of Supervisors approval to enter into credit agreements, as needed, for 10 years and \$150 million of credit support.

PG&E January 1st Rate Increase

- New rates for PG&E generation, transmission & distribution services went into effect on January 1, 2024.
- As of January 1, PG&E customers will experience a rate increase, including those that receive electricity generation services from CCAs like CleanPowerSF.
- The typical PG&E residential customer bill will increase by over \$30 per month in 2024. This is for both electricity and gas combined.
- CleanPowerSF customers will continue to see savings on their bills relative to taking PG&E generation service.
